

## Calendar Wiro Punching and Closing Machine

### OBPD600 OBCD620 OBPJ600 —Simple operation — durable !

This after printing paper finishing solution right for wall hanging calendars and desk calendars books binding with twin ring wire and spiral-O wire binding.

This heavy duty metal Wiro Closing Machine is fully adjustable for closing all of the different sizes of double loop wire that are available on the market. It works with smaller sized 3:1 pitch wire spines and with larger 2:1 pitch double loop wires. It can even be used with 19 loop spiral-o wire binding spines. This closer can even be adjusted to close the smallest 3/16" twin ring wires and the largest 1-1/2" double wires that many other wire closers cannot handle.

Any organization that owns an interchangeable die modular binding punch and wants to bind documents with twin loop wire should consider the Paper Punching Machine. This paper punching machine is easy to use, strong, durable and is reasonably priced. It is even reasonably fast.
